

**President Report**  
**Sept. 16, 2009**

Your local executive board sent me on a week long education put on by the CLC. The topic was Labour Law: Public & Private. It was extremely enlightening studying case laws that have been instrumental in many of the labour strides over the history of labour law in Canada.

The Rogers Unit negotiating team has completed a proposal package and will be looking to present to the Rogers members this week. As well, the CTV negotiating team is just getting their process under way. As both Rogers and CTV committees enter into negotiations it is very important that every member take note of their individual part in the process. It is the responsibility of every member to pay close attention to all communications put out by your negotiating committee and to make every effort to attend all meetings scheduled.

Preparations are under way for our first ever "all union" Children's Christmas party. All union members from both Rogers and CTV units will be invited. Watch your email and the local website for details on how to register.

That's all for now.

In Solidarity

Kelly Dobbs  
President
